NextDent 5100 Figure 4 Standalone Figure 4 Jewelry	v2.0.0.24	v2.0.0.18
Figure 4 Modular	v2.1.0-34	v1.0.4-1

Note: The latest firmware will be needed to use 3D Sprint direct with the Printer. However you can also use 3D Sprint in 'Virtual Printer' mode with an earlier firmware to create a build file that you can then transport to the printer manually.

Note: 3D Sprint does not enforce a minimum firmware check for all SLA and SLS printers.
